

Thank you for considering Weasels on Easels for your Fursuiting and Costuming needs. We Look forward to bringing your unique character to life!

Please read this page **BEFORE** filling out our quote form to better understand the Fursuit making terminology and make this process easier and clearer.

You'll need to fill out the form correctly and turn in **ALL** pages to get your quote! Quotes expire after 6 months, so if you're not looking to purchase within that time, we recommend playing around with the price calculator on our website!

Each character will need its own form, so if you want quotes for multiple characters, each one will need a form filled out for it! You can turn in up to 3 forms in any six-month period, and then after that, it costs \$25 each, so choose wisely! (the first 3 in any 6-month period are free!)

Fill out **ALL** sections needed for your suit type completely and legibly. Items marked with a 🐾 are required for that section or box and must be marked. Items marked with a \$ are upgrade selections that add to the overall price of your suit! Your price is determined by the type of suit, the style of suit, the complexity of the design, the number of colors and any and all upgrades marked with a \$.

#### Suit Types:

Fullsuit - This option includes Head, Bodysuit, Handpaws, Feetpaws, and a Tail

Mini-Partial - This option includes Head, Handpaws, and a Tail

Full-Partial - This option includes Head, Handpaws, Feetpaws, and a Tail

Partial Plus- This option includes Head, Arm Sleeves, Leg Sleeves, Handpaws, Feetpaws, and a Tail

Lower Half-suit - This option includes Head, Waist Down Legs, Handpaws, Feetpaws, and a Tail

#### Suit Styles:

Kimono: Anime inspired with rounded features, exaggerated emotion and big eyes.

Toony: Like a cartoon character. Exaggerated features and lots of personality with smooth, flat colors.

Semi Toony: Cartoon character features but with some realistic colors, shapes and/or patterns

Semi Realistic: Closer to a real animal but with exaggerated features and brighter colors/patterns.

Realistic: The feel of a living realistic animal but with some degree of personality.

Hyper Realistic: Become a walking, talking animal down to the slightest detail.

#### Ordering Your Suit!

I got my quote! Now what??

Once you have your quote, and are ready to order, there are a few options!

If we are currently open for Fullsuit slots, and your looking to pay in full, you may message us to enquire about filling a slot!

If you will need a payment plan, we have a couple options for that as well! We can take payment plans up to 6 months in length on purchases of at least \$2000 USD and up to 3 months in length for purchases of at least \$1000. In both cases, you'll be required to make a nonrefundable down-payment of at least 50% of your total! All work is added to the queue when paid in full, and for suits paid in full at start, 50% will be considered a nonrefundable deposit. Shipping is calculated and charged at completion for all work!

Our Complete TOS and other purchase information can be found on our website at [www.weaselson easels.com](http://www.weaselson easels.com) !

Material	Description	Texture	Rigidity	Durability	Weight	Uses
<b>Resin</b>	Dense, hand cast plastic usually made from a two-part compound and used for a variety of things.	Hard, Carvable, Sandable	High	High	Medium - Heavy	Headbases, Horns, Teeth, Claws, anything hard that you don't want to flex.
<b>EVA Foam</b>	A type of open cell foam used in a variety of applications. It comes in many densities and is sandable, carvable and also has sculptable, clay like varieties.	Semi Soft – Medium. Carvable, Sandable	Medium	Medium	Medium	Headbases, Horns, Props, Armor, Claws, Teeth, Detail Work, Feet Bottoms. Good for adding structure.
<b>Upholstery Foam</b>	Soft, Open Cell foam often used to make furniture, beds, pillows and other soft items.	Soft Carvable	Low	Med-Low Heat Sensitive	Light	Padding, Head Bases, Horns, Ears. Large, thin items prone to warping over time.
<b>Faux Fur (fake fur)</b>	Most often used material for fur suits, comes in many lengths and densities. Most often made from acrylic or mod acrylic.	Variable. Can be soft and smooth or textured.	Variable Strength, usually low or one way stretch	Variable	Variable	Bodies, Heads, Tails, Paws, Shawls, Hoods, Anywhere that needs fur. Typically caps at 3 - 4 inches in length.
<b>Minky</b>	Thin Density fabric with short plush fibers like a really short faux fur	Soft, fuzzy and plush.	Medium strength, Medium Stretch	Medium-Low	Light	Paw pads, Faces, Noses, Mouths, Palms of hands, Details, Etc
<b>Wefting</b>	Fur that has been made and woven by hand to achieve a specific length. Usually made from kaneckalon.	Usually long, hair-like texture.	Variable Strength and stretch.	Variable, Depends on how its made.	Variable	Detail areas, Fringes, Manes, Floofs on Tails, anywhere needing fur 6+in in length.
<b>NFT</b>	Specialty Faux fur fabric made by National Fiber Tech with mixed fiber types specializing in custom, realistic and long length fur fabrics.	Usually Realistic and hair or fur like texture	Medium Strength. High Stretch.	Medium durability	Heavier	Large areas requiring long or hyper realistic/specially colored fur, details, manes, fringes, etc.
<b>Vinyl</b>	Medium Density fabric that feels like leather. Other types are similar in feeling to tarps, or are smooth and shiny like plastic. Comes in a stretchy Variety	Feels like a flexible smooth plastic or like leather	Soft and Flexible, No Stretch or High Stretch	Medium, can wear or tear on rough surfaces.	Medium	Pawpads, claws, Noses, Tongues, Teeth, horns, etc Difficult to use for very tiny applications, shows seams.
<b>Silicone</b>	Stretchy, soft, pliable rubber cast in molds from a two-part compound used for a variety of applications. Usually platinum cure silicone.	Feels soft and squishy, similar in feeling to skin or fat.	Soft, flexible	Medium-High durability and heat resistance	Medium - Heavy	Used for paw pads, noses, tongues, claws, lips, horns and other detail work. Used to replicate realism or where rigid parts could be hazardous.
<b>Rubber</b>	Dense, yet pliable and somewhat soft. It is cast in molds from a two part compound used for a variety of applications. Usually a Urethane rubber.	Feels similar to silicone, but much denser.	Dense but Flexible	High Durability	Heavy	Feet Pads, Horns, Spikes, Details. Often purchased in sheets and used to sole feet paws or shoe bottoms.

# Agreement of Artistry

I understand that the completion of this form and the return of it does not guarantee me a work slot nor does it require the artists at Weasels on Easels to accept my commission. **Initials** \_\_\_\_\_

I understand that the artists at Weasels on Easels are people too, and that while they may try to meet my requests the best they can, not everything is possible and that some things may not be able to be created due to skills, material or physical limitations of the build. **Initials** \_\_\_\_\_

I understand that once I have turned in a form, received a quote and paid for contracted work, that no more changes to the character or design can be made. If changes are absolutely needed, there will be charges incurred, and work will not continue until they are paid. **Initials** \_\_\_\_\_

I believe to the best of my abilities that this information is accurate and that in the event I order work, this form and the contained information may be used to create my work to the best of the abilities of the artists at Weasels on Easels and that by signing here, I agree to their terms of service that can be found on their website here: [www.weaseloneasels.com/terms-of-service](http://www.weaseloneasels.com/terms-of-service) .

Signature: \_\_\_\_\_ Printed: \_\_\_\_\_ Date: \_\_\_\_/\_\_\_\_/\_\_\_\_

**Please include a three-view reference with your quote. For all asymmetrical designs, please include 4 sides. 3/4 Views not accepted.**

**Some exceptions may be allowed for quotes, but an approved reference will be required at build time before any work is started.**

**Do not write below this line - Weasels on Easels Use Only**
